Professional Summary

First-year BCA student at St. Xavier's College, Ahmedabad, with hands-on experience in Figma, HTML/CSS/JS, and brand identity design. I bridge the gap between design and development — I prototype in Figma and implement in code.
I start with understanding the user's context and the brand's personality before opening Figma. I prefer working from low-fidelity wireframes upward, and I always test layouts on real devices, not just browser previews. Because I can also write HTML/CSS, I think about implementation constraints from the beginning — which makes handoff smoother.
Completed UX Job Ready Certification (March 2026). Currently seeking a **full-time UI/UX internship** for **May 2026**.

Education

Bachelor of Computer Applications (BCA) – First Year
St. Xavier’s College (Autonomous), Ahmedabad
Currently Pursuing

Class XII – CBSE (Humanities)
Sheth CN English Medium School, Ambawadi, Ahmedabad
Score: **96%** | Year: **2024–25**
Key Subjects: Psychology, History, Informatics Practices (Computer), Political Science, English

Class X – CBSE
Sheth CN English Medium School, Ambawadi, Ahmedabad
Score: **87%** | Year: **2022–23**
Strengths: Social Science, Languages

Skills

Technical Skills

- **Design & Productivity:** ***Figma***, Canva, PowerPoint, MS Word, Excel, Access
- **Programming & Databases:** C, C++, Python, Pandas, CSV, SQL, MySQL, JavaScript (DSA basics)
- **Web Basics:** HTML, CSS, JavaScript.

Academic & Cognitive Skills

- Analytical and in-depth understanding of concepts
- Strong writing and documentation skills
- Curious learner with research-oriented mindset

Soft Skills

- Communication (strong in face-to-face interactions)
- Teamwork and collaboration
- Leadership and coordination
- Time management and adaptability

Creative Skills

- UI/UX sensibility and visual design
- Content writing and ideation
- Translating perception into practical execution

Projects

Noir Essence – Perfume Brand Website (Personal Project)

• Conceptualized and designed a luxury perfume brand identity from scratch
• Created high-fidelity product posters and visual assets using Figma
• Designed and developed a fully responsive website using HTML, CSS, and JavaScript
• Built a cohesive design-to-development experience focused on aesthetics, storytelling, and user engagement.

Result: A fully deployed brand-to-code experience demonstrating end-to-end product design capability — from identity system to live responsive website.

Mindform Studio – Brand Identity (Personal Project)

- Conceptualized and designed a complete brand identity

- Created visual assets and structured brand documentation using Figma
- Designed mobile-friendly and community-oriented design concepts
- Continually refining brand strategy and visuals

Digital Design & Advertising Work (Personal)

- Designed social media posts, ad creatives, and promotional visuals
- Focused on visual storytelling, clarity, and audience engagement

Government Scheme Management System
Class XII – Informatics Practices Project (Team of 2)

- Developed a menu-driven Python application using CSV/SQL for managing government scheme data
- Implemented features to view, add, update, delete, and year-wise sort records
- Tools Used: Python, Pandas, MySQL, VS Code
- Skills Applied: Logic building, database management, teamwork, documentation
- Outcome: Created a reusable, scalable, real-life problem-based system

---

Experience & Responsibilities

Volunteer – Youth Festival 2025
Gujarat University

- Supported discipline control and event management
- Duration: 3 event days + 5 pre-event preparation days

Extra-Curricular Committee (ECC) Member
