Portfolio: https://vanshis-portfolio.vercel.app/

PROFESSIONAL SUMMARY

Undergraduate web developer and UI/UX-oriented problem solver with hands-on experience building **real, production-ready websites for actual businesses**. Strong focus on **clarity, performance, security, and user trust**, with the ability to translate unstructured real-world requirements into clean, maintainable digital systems.
Comfortable working across **design (Figma) and frontend development (HTML, CSS, JavaScript)**, with a growing interest in scalable web architecture and user-centric product thinking. Experienced in modern frontend technologies including React, Next.js, and Tailwind CSS, with a growing focus on scalable UI systems. Actively seeking **internships or junior roles** where thoughtful design and engineering meet real business impact.

EDUCATION

Bachelor of Computer Applications (BCA)
St. Xavier's College (Autonomous), Ahmedabad
2024 – Present

Class XII – CBSE (Humanities)
Sheth CN English Medium School, Ahmedabad
96% | 2023–24

Class X – CBSE
Sheth CN English Medium School, Ahmedabad
87% | 2021–22

TECHNICAL SKILLS

Design & UI/UX

- Figma (advanced layouts, components, grids, prototyping)
- Visual hierarchy, spacing systems (8pt grid)
- Typography & branding systems
- Wireframing and basic user flows
- Design consistency & component thinking

Frontend & Web

- HTML5 (semantic structure)
- CSS3, Tailwind CSS
- JavaScript (ES6+)
- Responsive & mobile-first design
- Component-based architecture

Programming & Data

- Python (CSV, Pandas)
- SQL & MySQL
- C, C++ (basics)
- Data handling & logical problem solving

Tools

- VS Code
- Git & GitHub
- Vercel (deployment & optimization)
- Figma(Advanced)
- Canva
- Canva Affinity, Photoshop (basic)
- Notion

PROJECTS

Taksh Enterprise — Production Business Website

Designer & Frontend Developer | Live Project

Designed and developed a **production-grade website** for a 25+ year offline IT hardware business transitioning to digital discovery

-

- Translated real business constraints into a **quote-based, trust-first web experience**, avoiding unnecessary e-commerce complexity
- Implemented a **static, security-focused architecture** to minimize attack surface and maintenance overhead
- Optimized for **mobile-first usage**, performance, and accessibility based on real customer behavior
- Integrated **WhatsApp-based inquiry flow** to reduce response time and improve lead quality •

  Documented UX, technical, and architectural decisions with a **future scalability roadmap**

  Tech Stack:
  HTML • CSS • Tailwind • JavaScript • Vercel Deployment

Live site: https://takshenterprise.vercel.app/

Mindform Studio — Brand Identity & UI Design System

Personal Project

- Conceptualized and designed a **premium minimalist brand identity** from scratch
- Built a complete **design system** including logo variations, color palette, typography, spacing, and UI components
- Applied strong grid discipline, hierarchy, and consistency across all assets
- Demonstrated systems thinking rather than isolated screens
- Iterated on designs based on refinement and visual clarity goals

Figma Prototype: *(already exists — should be linked clearly)*

Government Scheme Management System

Class XII Informatics Practices Project

- Built a menu-driven Python application using CSV and SQL
- Implemented CRUD operations and structured data handling

- Applied logical problem-solving, documentation, and teamwork

---

EXPERIENCE

Digital Marketing & Web Operations — Taksh Enterprise
Family Business | Ahmedabad

- Managed Amazon and Flipkart seller operations from setup to inventory handling
- Supported digital sales and online visibility for IT hardware products
- Designed website layouts and prototypes in Figma
- Currently expanding technical depth through frontend development and system design

---

CERTIFICATIONS & TRAINING

- AWS Workshop — Full-Day Hands-On Training(2025)
- Azure Database Seminar(2025)
- Data Structures & Algorithms in JavaScript — Frameboxx (3 months)(2025) • Block Coding Certification (2021)

SOFT SKILLS

- Clear communicator (strong in face-to-face collaboration)
- Detail-oriented and structured thinker
- Ownership mindset
- Fast learner with strong self-discipline
- Comfortable handling real-world ambiguity

LANGUAGES

- English — Fluent (IELTS Band 7)

-
- Hindi — Fluent

  Gujarati — Native

- German — Basic (A1)

AVAILABILITY

Open to **internships, trainee roles, and junior opportunities**.
Available part-time during college and full-time during academic breaks.
